

Tahseen Saber Profile

Tahseen Saber is an Instrument & Control Engineer and OT cybersecurity Engineer with over 15 years' experience in oil, gas, and petrochemical plants. He has a strong background in all types of field instruments, fire and gas systems, and online analyzers. He performs periodic lifecycle reviews, backups, and alarm management for control systems, ensuring their reliability, security and efficiency.

Tahseen also has extensive hands-on experience in operating, troubleshooting, and modifying various systems and protocols, such as Foxboro I/A DCS, HIMA PLC, Allen Bradley, Siemens S7-1200, Modbus, Profinet, ControlNet, and OPC.

He is passionate about securing and maintaining industrial automation systems, and has obtained the following certifications to enhance his skills and knowledge in this field.

Tahseen also holds a Bachelor of Engineering degree from the Faculty of Engineering of Zagazig University in Cairo, Egypt.
